“Theresa Amato takes the biggest swing—not a jab, but a roundhouse punch—at America’s corrupt electoral system. It is not an overstatement to speculate that the next president of the United States could be decided by Anheuser-Busch! Skeptical? Read this book.”

—PHIL DONAHUE

“The best book about ballot access ever. . . . This book is of the most supreme importance.”

—RICHARD WINGER,
PUBLISHER OF BALLOT ACCESS NEWS

“Until you have run, as I did, outside the two major parties, it is impossible to imagine the injustices of the two-party-tilted electoral process. Theresa Amato masterfully exposes the horrors faced by third-party and Independent candidates seeking the chance to compete and provide political choices for the American voter.”

—JOHN ANDERSON
